

The STAR Multi Academy Trust

INVESTMENT POLICY

Date Approved by the STAR MAT Trust Board	November 2018 November 2020 12 January 2023
Review Date	October 2020 November 2022 January 2025

Purpose and scope

The purpose of the Investments Policy is to set out the processes by which Academy trustees will meet their duties under the Academy's Articles of Association and Academies Financial Handbook issued by the EFA to invest monies surplus to operational requirements in furtherance of the Academy's charitable aims and to ensure that investment risk is properly and prudently managed.

Definition of duties

The Academy's Articles gives Trustees the power "to expend the funds of the Trust in such manner as they shall consider most beneficial for the achievement of the Objects and to invest in the name of the Trust such part of the funds as they may see fit and to direct the sale or transposition of any such investments and to expend the proceeds of any such sale in furtherance of the Objects."

Whilst the Board of Trustees (Governing Body) has responsibility for the Trust's finances, the Scheme of Delegation approved by the Governing Body delegates responsibility to the Finance Audit and Risk (FAR) Committee:

To approve the Investments Policy to manage, control and track financial exposure, and ensure value for money; to review the trust's investments and investment policy on a regular basis.

The Chair of the Finance Audit and Risk (FAR) Committee is responsible for producing reliable cash flow forecasts as a basis for decision making. They are responsible for making investment decisions that comply with this Policy and for providing enough management information to the Finance Audit and Risk (FAR) Committee, so it can review and monitor investment performance.

Objectives

The investment objectives are:

- to achieve best financial return available whilst ensuring that security of deposits takes precedence over revenue maximisation.
- Only invest funds surplus to operational need based on all financial commitments being met without the Academy bank account becoming overdrawn.
- By complying with this policy, all investment decisions should be exercised with care and skill and consequently be in the best interests of the Academy, commanding broad public support.

Investment strategy

Investment risk will be managed through asset class selection and diversification to ensure that security of deposits takes precedence over revenue maximisation.

To manage the risk of default, deposits should be spread by banking institution and be subject to a

maximum exposure of £500,000 with any PRA authorised institution by the Bank of England (refer to Financial Conduct Authority (FCA). Whilst this exceeds the protection limit of £75,000 provided by the FCA it is accepted that it is not always practicable to find enough investments of this size that meet the prudent criteria outlined in this policy.

Spending and liquidity policy

Decisions on how much to invest and how long to invest for, will be based on operational requirements, demonstrated by cash flow forecasts produced by the Director of Finance and Resources. The cash flow forecasts will take account of the annual budget and spending plans approved by the Governing Body and updated on a monthly basis.

A sufficient balance must be held in the current account so that the Academy's financial commitments can always be met without the bank account going overdrawn. The size of the balance will be determined by a forecast of future need and kept under review.

Investments for a fixed term should not normally exceed one year in order to provide flexibility for the following year's plans, unless a clear rationale is provided for exceeding one year to the benefit of the Academy.

Monitoring and review

The Academy has authorized signatories, two of which are required to sign instructions to the deposit taking institution.

The Chair of the Finance Audit & Risk (FAR) Committee will monitor the cash position and cash flow forecast and report investments held and the performance of investments against objectives to the Finance Audit and Risk (FAR) Committee at appropriate intervals, depending on the terms of the investments. For example, if investments are held one year then an annual report is appropriate.

This Investment Policy has been approved by the Finance Audit and Risk (FAR) Committee. It will be reviewed on an annual basis to ensure continuing appropriateness.
